EDITORIAL

असतो मा सद्गमय ।
तमसो मा ज्योतिर्गमय ।
मृत्योर्मा मृतं गमय ।
ॐ शान्ति शान्ति शान्ति ।।

lead us from ignorance to the wisdom
lead us from darkness to light;
lead us from death to immortality
Aum peace, peace, peace.

This is what MVPM is doing for last more than 94 years. This is the aim and objective of our MVPM to bring out our community and each and every Maheshwari individual from lack of education to abundance of knowledge, and to provide all possible help and support to achieve this

PRAVEENYA means to acquire proficiency in any field of knowledge or skill. Here at MVPM we celebrate PRAVEENYA of our students every year, who have achieved excellence in respective field of academic career. The extraordinary success of our students needs to be appreciated and recognised and put forward to community. They are torch bearers and role models for fellow students. Their success gives inspiration to everyone. Praveenya is all about appreciation, encouragement and inspiration.

This Praveenya contains update information about MVPM Maheshwari scholar award program, all other activities of MVPM, upcoming projects undertaken by MVPM, views and guidance shared by experts on present day education system.

We highly appreciate the generosity of award sponsorors for contributing funds for this unique initiative of MVPM

It gives us great pleasure to present you the copy of Praveenya, hoping that you will find it informative and readable.

Thanks

From the Desk of **President**

This is tenth edition of MVPM Maheshwari Scholar programme since inception and fourth in Mumbai. The Scholar programme has come a long way since its beginning in 2012 and today 139 Scholar Youths of our society are honoured with this award. Today we have best talent pool in various streams and time has come to build this intellectual pool for the benefit of the society.

The inspiring presence of two stalwarts from our society Shri Dr. Brajeshji Maheshwari and Shri Aakashji Moondhra to honour the Scholars is very encouraging. Receiving the award at the hands of people like these is really very proud moment for all the awardees.

The visibility of the award function is increasing with every year and MVPM is planning to hold these functions at all major cities in India. Thus will help to make award more glorious and increased recognition for awardees. Few of the cities under consideration are Jodhpur, Indore, Delhi, Kolkata & Bengaluru. The day is not long even when International cities will also host the award function.

The execution of MVPM scholar programme is excellent opportunity for MVPM Hostel students and it is way of great learnings for them. Networking with scholars, coordination, oratory & minute to minute agenda are some of the take away for Hostel students and I must admire their high energy levels with which they conduct total 150-minute programme.

The ultimate objective of the Scholar programme is not still achieved and we all have to make tremendous efforts to connect all the Scholars with the society with their wisdom. We at MVPM believe that such exceptional talent pool is rare elsewhere in this universe and time has ripen to plan for programmes all over the year for the benefit of youths. All MVPM Scholars are very busy as in the initial period of career building and it is very challenging to get their resources for the benefit of the society. However, I am sure that Scholar committee will go all out to connect with all the past scholars and plan programme with their help. Even all the Jury & sponsorers can come from MVPM Scholar pool, this will help to bring credit ability to programme in long run.

I see Scholar programme ten year down the line as global think tank of Maheshwari,s.

Atul Lahoti,

President, MVPM

From the Desk of Chairman

It is a matter of immense pride, that year after year, the Maheshwari community students are putting up an overwhelming performance in various Education segments. This is evident from the increasing number of applications for Maheshwari Scholars Award. Our scholars continue to grow in quantity and quality. This is in line with the significant contribution our small community makes in all walks of life be it social, industry, business, culture or education..

Only this year we had over 200 scholars in advance studies applying for the award. 90 of them stepped up to the next level and finally 36 applicants interacted with the Jury board. The jury board has selected the top scholars from them, and we will soon have the privilege to honour these bests among us.

What is also very heartening to note is the surge in numbers of UPSC, Overseas & female applicants, which is truly indicative of the overall improving performance of Maheshwari scholars.

MVPM is a one stop shop for Quality educate for deserving students.

As followers of "Sanatan Dharma" we need to give back to the society, having received so much from it . It is our endeavour to do our best to ensure that Scholars of our community are able to surmount all barriers and reach the top. In line with this, our ancestors forged an adequate network of support services which could breed exemplary performers and achievers. Our present generation and the generations to come, have a responsibility to continually upgrade this support system, as the world changes. This we need to do with unflinching adherence to the high value standards set by Maheshwari community. In a world which will be ruled by knowledge, what can be more important than to encourage, breed & nurture our scholars.

It is also an earnest plea to our current and future scholars to stay connected with MVPM. With their support, we will be only able to have more like them.

With an honest effort, let us ensure that through our growing numbers of Maheshwari scholars , we not only contribute our bit for Nation building but also help our country retain its position of a World Guru.

Shreegopal Kabra,

Scholar Committee Chairman

From the Desk of Secretary

For centuries, Maheshwari community had been largely known as traders engaged in various types of products in wide spread geographies. Starting twentieth century and more aggressively from sixties and late seventies, the community at large started recognising that higher education is crucial in shaping the future of their next generation and contributing to the overall development of society. The community leaders understood that education is a cornerstone for societal development, encompassing economic growth, cultural enrichment, technological advancements, and the overall well-being of individuals and communities. With this new mind-set, education is now taken as investment in the future that yields long-term benefits for society as a whole.

With this preamble, Maheshwari Vidya Pracharak Mandal (**MVPM**), Pune has created a comprehensive and inclusive approach to assist deserving Maheshwari students, especially those coming from smaller towns who do not have access to information, finances and support system. These students have diverse needs and face various challenges to pursue higher education. Providing financial assistance to deserving students for higher education is a critical aspect of **promoting equal opportunities** and ensuring that talented individuals have access to education regardless of their individual constraints and financial circumstances.

A well-educated workforce is essential for economic development. Nations with a strong higher education system are often more competitive on the global stage and better equipped to address global challenges, participate in international collaborations, and contribute to a more interconnected world.

MVPM has contributed immensely to make Maheshwari community and India as a whole better recognised equipped to face global competition.

Higher education also nurtures leaders and policymakers. Young leaders from the Maheshwari community are not behind in taking up higher roles in government, civil society, influencing decision-making processes and contributing to the development of effective governance.

Scholars award is an important initiative by MVPM to recognise extraordinary achievements of Maheshwari students and motivate upcoming youngsters towards higher achievements.

I would like to take this opportunity to acknowledge each member of the Jury Board and Scholars Award Committee. Special thanks to Shri Manak ji and Shri Maloo ji, for such dedication and hard work. The visibility of the award function is increasing with every year and MVPM is planning to make this award function more broad based in India. This will help to make award more glorious and increased recognition for awardees. Looking at MVPM Scholars, I feel a great sense of pride and wish all MVPM scholars a sincere congratulation on receiving this prestigious Scholar Award.

Wishing you a bright future. Cheers!

S N Somani,

Secretary MVPM Scholar Committee

From the Desk of **Working President**

The future belongs to those who believe in the beauty of their dreams” .

This is the 10th Edition of MVPM Scholar's, the mission of setting global benchmark to academic excellence for Maheshwari community inspired MVPM institute & Maheshwari Scholar Awards in 2012.

This award recognises extraordinary scholastic achievement of such Maheshwari's who can serve as role model for the youth of our community.

I would like to take the opportunity to acknowledge each and every member of the Jury & working Committee, Thank you for being so dedicated and hard-working!

Looking at MVPM Scholars, I feel a great sense of pride and taking this platform to a higher level and also like to wish all MVPM scholars a hearty congratulation on receiving the MVPM scholar award, you all are bright and hard-working. Keep it up!

Also, All the MVPM hostel students are getting good exposure and guidance through all the seminars and sessions conducted till date, which will enable them to guide, grow in future .

Congratulations once again!!

Warm Regards.

Shekhar Mundada,

Working President, MVPM

From the Desk of **Ex Chairman**

We are highly energized to witness the level of enthusiasm amongst our Scholar applicants as part of the Scholar Awards program 2023. The number of applications received this year has broken all records.

These Awards started in 2012 and as a matter of pride to our community these awards have been replicated across various sections of other communities signifying and re-enforcing the benefits and values these awards bring to the country at large.

For 2023 we received more than 100 Scholar applications from various parts of the world. We strongly believe that these applicants have the potential to be the future leaders leading India on its journey to be a global Super Power.

These awards aim at bringing enhanced benefits to our community by identifying and supporting future leaders and assisting them being the best.

Through this award the Scholars are reminded of their responsibility to the society and are encouraged to choose and contribute in whatever way they can. We encourage them to strike an equilibrium between duties and responsibilities to ensure that they are appropriately influencing the various support services around us - these support services are highly instrumental in influencing our personality, impacting our progress, uplifting our growth, inspiring our success and shaping our values system.

Finally, I am confident of the positive impact of these Awards on the future generation leaders of our community which in turn will help the MVPM Scholar committee achieve greater heights.

CA Vrajendra Maloo,

Ex Chairman, MVPM Scholars Committee

From the Desk of Trustee

I very warm heartedly congratulate to all Scholars and Promising scholars of “MVPM Scholar Award 2023”. I have great pleasure to inform you all, year to year the applications of Talent and Excellence is increasing from various streams. This year we received around 220 applications as compared to 140 in previous academic year to achieve this globally popularized prestigious MVPM Scholar Award.

Dear All, The Motto and aim of this award is to encourage our forthcoming students and talent to participate in the race, also to develop their personality and boldness. Secondly to connect the talent and excellence of our community with us, and amongst themselves for sharing and exchanging their excellence, skill, expertise with our upcoming students. For this MVPM has prepared and developed the connectivity link for the benefit of all and Of Course directly and indirectly to business, service industry and etc. Today uptill now around 180 Scholars are registered and connected with the MVPM link to share and guide their expertise, knowledge, skill, business and job challenges in prevailing competitive scenario.

This attempt is just beginning by MVPM and planning thought process in big way.

Finally I myself and MVPM is very much thankful to all including Chief guest, Guest of honour, Sponsors, Participants, Scholar Committee Members and Of Course Audience who directly or indirectly made this “Evening Event” graceful and successful.

With Warm Regards and Best Wishes,

Manakchandji Kabra

Trustee

Donor of 10th MVPM Maheshwari Scholar Award 2023

Dear Maheshwari Vidya Pracharak Mandal,

I hope this message finds you well. I am writing to express my appreciation for the commendable work that the organization, under the guidance of Shree Vrajendra Maloo and Shree Manak Kabara, has been doing to encourage and motivate the upcoming leaders in our community.

Having attended a couple of programs facilitated by your esteemed organization, I have observed the impactful contributions made by the Mandal towards the development of our community's future leaders. I would like to offer a suggestion that could potentially enhance the scope of your initiatives.

In recent times, I have noticed a trend where the younger generation, despite having a family business background, tends to gravitate towards salaried employment. It appears that they may perceive their family businesses as less appealing due to the emphasis on higher education. To address this, I propose the inclusion of a talk show or a debate focusing on business and service for the new generation.

This platform could serve as an opportunity to discuss the evolving dynamics of entrepreneurship, the importance of education in the business world, and strategies to bridge the gap between traditional family businesses and modern career aspirations. By fostering dialogue and understanding, we may encourage young individuals to see the value and potential in continuing or joining their family businesses.

Furthermore, I recommend instituting awards to recognize and appreciate the efforts of young businessmen who have either started their ventures or actively contributed to their family businesses. Acknowledging their commendable work would not only motivate them further but also inspire others in the community.

I am eagerly looking forward to the upcoming event on the 10th of February in Mumbai and wish the Maheshwari Vidya Pracharak Mandal continued success in all its endeavors. Your commitment to nurturing the leaders of tomorrow is truly commendable, and I believe that incorporating these suggestions could further amplify the positive impact of your initiatives.

Thank you for your time and consideration.

Best regards,

Dr. B. L. Maheshwari,

Donar of 10th MVPM Maheshwari Scholar Award 2023

Donor of 10th MVPM Maheshwari Scholar Award 2023

Mr V P Mundra is a qualified Chartered Accountant but chose the engineering industry to give wings to his entrepreneurial dreams. He started his career by dealing in industrial instruments but soon ventured in manufacturing Asphalt Batch Mix Plant and Crushing Plants in India. With his flawless understanding of engineering processes along with vast and expert knowledge, he has carved a niche for himself in Road Construction Equipment Industry.

In today's world, where the notion of dropping out for entrepreneurship is celebrated, he staunchly believes in the value of education as a strategic advantage for aspiring entrepreneurs.

Best regards,

V P Mundra,

Donar of 10th MVPM Maheshwari Scholar Award 2023

Donor of 10th MVPM Maheshwari Scholar Award 2023

Dr. Satyanarayanji Kabra,

Associate Donar of 10th MVPM Maheshwari Scholar Award 2023

Chief Guest

Dr. Brajeshji Maheshwari

Founder Chairman & Director, Allen Career Institute Pvt. Ltd.

Dr. Brajesh Maheshwari is a prominent figure in the education world, serving as the Founder Director of ALLEN Career Institute Pvt. Ltd. (ACIPL). This institute is founded on April 18, 1988, with just eight students and named in the loving memory of the Late Shri Laxmi Narayan Maheshwari, father of four brothers Shri Govind Maheshwari, Shri Rajesh Maheshwari, Shri Naveen Maheshwari & Shri Brajesh Maheshwari. He is the youngest one.

Dr. Brajesh Maheshwari completed his engineering degree in June 1989 from NIT Surat in the Civil Branch and was awarded a Gold Medal. During his college days, he used to prepare guess papers for his friends, which they eagerly awaited as almost 70% of the questions matched. After completing his engineering, BM Sir came to Kota and would often sit outside ALLEN classrooms, easily solving problems in Physics and Maths when asked by students. He continued to do this for three months before a key Physics teacher informed Rajesh Maheshwari that he would no longer be teaching at ALLEN. Dr. Brajesh Maheshwari stepped in and started teaching Physics with dedication, despite having a strong grasp of Mathematics.

In 1993, the Rajasthan PET examination was held, and the second and third ranks were secured by students from Kota, which further increased students' faith in ALLEN. Determined to make subjects like Physics easier for his students, Dr. Brajesh Maheshwari created short notes and tricks. His students started topping exams every year, and the fragrance of his teaching soon spread all over the country, with students from all over India pouring into Kota to study. Dr. Brajesh Maheshwari's journey from a blackboard to a digital board has helped establish thousands of students in prestigious positions. He not only makes subjects easier for his students but also motivates them with his passion and enthusiasm.

The success story of ALLEN Career Institute Pvt Ltd continued as Pankaj Agarwal secured the first rank in RPMT 1995. This was a turning point for the institute as it became a preferred destination for PET and PMT coaching. However, the success was not achieved easily as Brajesh Maheshwari Sir and the ALLEN team worked very hard effortlessly to achieve this feat.

BM Sir remained committed to his mission of helping students and became the most appreciated teacher of Physics for JEE, PET & PMT. He used innovative methods such as rhymes, songs, and tricks to make difficult concepts interesting and easier to understand, which made him very popular among the students.

ALLEN Career Institute Pvt. Ltd. Which is a symbol of united family of four devoted brothers, has grown up to a large group of 15000+ members as on date, with trust of more than 30 lac+ students in all modes since 1988. With the pious wishes of Mother Smt. Krishnadevi Maheshwari & blessings of the most revered Jagadguru Ramanujacharya Shri Jhalaria Peethadhishwar Swamiji Shri Ghanshyamacharya Ji Maharaj, the institute is writing its success story and adding more episodes of splendid achievements year after year.

AWARDS & ACHIEVEMENTS

Dr. BM Sir as an academician, and motivator has made an incredible contribution to positioning ALLEN at the forefront of science coaching, particularly in the fields of medical and engineering. During challenging times such as the Covid-19 pandemic, BM Sir took on the role of a charioteer, like Lord Krishna, and initiated a daily motivational quote and video series for all his students located across the globe. This series is still ongoing, and he also frequently motivates his students through various live sessions. As a result of his unwavering dedication to his students, he has been recognized with numerous awards and honors as given below:

Conferred with "The Extraordinaire - Powerful Edupreneur" award at the Nex Brands Brand Vision Awards 2017-2018. This award was chosen by both consumers and industry professionals and was presented on January 30th at ITC Maratha in Mumbai.

Honoured with "Excellence in Education" of India News Maharashtra Gaurav Award Maharashtra Kishaan. The award was presented to Sh. Brajesh Maheshwari by Mr Nitin Gadkari, Union Minister for Road Transport and Highways at Hotel Trident, Mumbai on 28th July 2018

Honoured with the prestigious '**Times Power Men - West India 2019**' award.'

Conferred with **Honorary Doctorate by International Internship University (IIU)** for his exemplary contribution to the field of education. Dr. BM Sir is felicitated with the Honorary doctorate for keeping the students spirited and giving a digital push to education during Covid-19.

Honored with the "**Changemaker Educator Award**" during the felicitation ceremony held at The International Innovative Education Summit-2022, organized by the In2Future Group co-founders Ramakant Acharya and Manish Kumar in Dubai. He was recognized for his incomparable contribution over the last three decades in the field of education. The event was concluded at the Oaks Ibn Battuta Hotel on 27th March 2022. Academicians from different countries participated in this summit. BM Sir attended this summit as the "Guest of Honour."

Many other awards/honour on national and international level for the contribution in education sector

Guest of Honour

Shri. Aakashji Moondhra

Chairperson of V-Mart Retail Limited

Aakashji Moondhraj brings with him 25+ years of unique, diverse and global experience. He is currently Independent Chairperson of V-Mart Retail Limited, a INR 4000 crore market cap company in India. During his tenure on the Board the company has grown from 20 stores to 450+ stores and 10x growth in stock price post listing in February 2013.'

Most recently, He was Global CFO of PayU (Naspers/Prosus Fintech Business) with business in 28 countries.

During his tenure, PayU has grown 11+ times in the 8 years with ~INR 10,000 crores revenue, 10X growth in valuation, and ~INR 800,000 crores transaction volume, and the payments business turned around from hugely loss making to profitable. Besides being the CFO, he was a part of the core team that shaped Prosus Fintech Strategy through organic and inorganic expansion in high-growth markets ranging from India to CEE to Latin America to SEA. He played a key role in deploying ~INR 13,000 crores through acquisitions (Citrus, Wibmo, Red Dot, Iyzico, Zooz, Paysense) and investments (Creditas, Remitly, Fisdom, Bakkt, Diem, DotPe), in 55+ transactions, and exit of PayU GPO business.

Prior to joining PayU, he was the CFO of Snapdeal, and had contributed immensely in the 100X growth (2012-2015) of Snapdeal, with \$1Billion+ fund raise in multiple rounds.

Aakash has worked with ANZ Grindlays Bank, Andersen Consulting, has been an Entrepreneur selling readymade kitchens, AT&T - USA, Bharti Group and Baring Private Equity.

Academically he is a Chartered Accountant & Company Secretary (All India Ranks in all exams), an MBA from Southern Methodist University, Dallas, USA with Beta Gamma Sigma, has completed a Advanced Strategic Management Course from University of Michigan Business School, and was a part of the Financial Leadership Program at AT&T. He has won the CFO Roll of Honor award for the year 2014 and 2015, given by the CFO Institute. He completed the "International Directors Program – Certified (IDP-C)" from INSEAD on Corporate Governance, "Leading from the Chair" program from INSEAD, "International Business Sustainability Programme" from INSEAD, and "Making Corporate Board More Effective" Program from Harvard Business School.

He believes in Impossible also says I M Possible, Rule from your heart, Do your best efforts - leave the rest, You can lie to everyone but not yourself, and Life is only once. Go on to create change for the better, Enjoy every bit, and Be open. That Thou Art (Tat Tvam Asi)

From the Desk of **Jury**

Maheshwari Vidyapracharak Mandal is doing excellent work and proving true to its name in promoting education and helping the underprivileged students of the maheshwari samaj in various ways right from distributing scholarships and financial aid to students who are meritorious but lack the means to pursue higher education. They have chosen to help students from diverse fields and provide aid in all aspects be it resources like laptops, and educational materials or fees. The most remarkable contribution is to provide for hostels in this mega city of Mumbai. It's heartening to note that not only are the old hostels being refurbished but the mandal is dedicated to promoting female education and building the girls hostel in Airoli. I'm sure it'll go a long way in helping the deserving and needy candidates achieve their goals in life.

I'm proud and privileged to be associated as a jury member for such a noble cause and I shall contribute to the best of my abilities and time to help MVPMM achieve its goals and commitments to the society.

With Best Wishes,

Prof. Pravinji Rathi

Jury

MESSAGES FROM SHRI. MUKESHJI CHECHANI

With more than 32 years of rich and diversified experience in Financial Planning, Project Financing, Fund Management, Budgeting, Accounts, Commercial Operations & MIS, Shri. Mukesh Chechani is a keen analyst with exceptional negotiation and has excellent relationship management skills. He started his journey in Reliance Industries Ltd. with Reliance Infocomm.

Shri. Mukesh Chechani has secured 17th rank in Chartered Accountants exam and is also closely associated with various social institutions, including ISKCON, Kharghar.

I extend my heartfelt congratulations to all individuals who are being honored for their remarkable achievements. Your hard work, dedication, and perseverance have brought you to this moment, and it's truly commendable.

As you gear up for your next steps, I just want to share with some nuggets that can help guide you in your journey.

Remember reaching this goal is just a start, there is always more to learn and explore. Keep your eyes open and grab every opportunity you can to enhance your learning. Keep your curiosity alive so that you can keep updating and reinventing yourself. This will not only keep you relevant but also help you grow as a human being.

Make mistakes and move on quickly: Only those who dare to make mistakes dare to take big leaps too. So don't be afraid to fail but have the courage to accept them, learn from them, correct them and move on quickly

Honour the virtues of hard work and honesty- they never go out of fashion! Remember there are no shortcuts to realizing your dreams. Work hard and work extra hard till you get what you want from life.

Keep in mind that while you are ascending to your peak, stay humble and grounded. That will ensure that your sustained success. And while you are doing great for yourself, look around and see how you can do great for people who work with you, for people around you and the society at large. This is the ultimate testimony for your success.

So, keep the spark in your eyes and go ahead with a strong resolve to the next big thing. Congratulations once again!

Shri. Ayushji Kalani

A post graduate from IIT Roorkee, he brings a wealth of experience in Sales Management, Business Development & Digital Marketing Technologies.

Fostering Excellence through Merit: A Glimpse into MVPM Scholar Award's Objective and Selection Process

Respected community members,

It is with great pleasure that I extend a warm welcome to all as we approach the MVPM Scholar Awards 2023 (10th edition), a celebration of academic excellence and potential within our community. As the Chairman of the scrutiny committee, I am honoured to provide insights into the fundamental objectives of our prestigious award and the rigorous scientific methodologies employed to identify the most deserving candidates.

Objective of the Award:

The primary aim of our Scholar Award program is to recognize and support individuals who exhibit outstanding academic achievements in their respective fields of specializations during graduation and beyond. Furthermore, the final stage of the selection process also involves additional assessment of exemplary leadership qualities and a commitment to community service. We believe in investing in the future by empowering bright minds from our Maheshwari community to pursue their educational aspirations, thereby contributing to the overall development of our community.

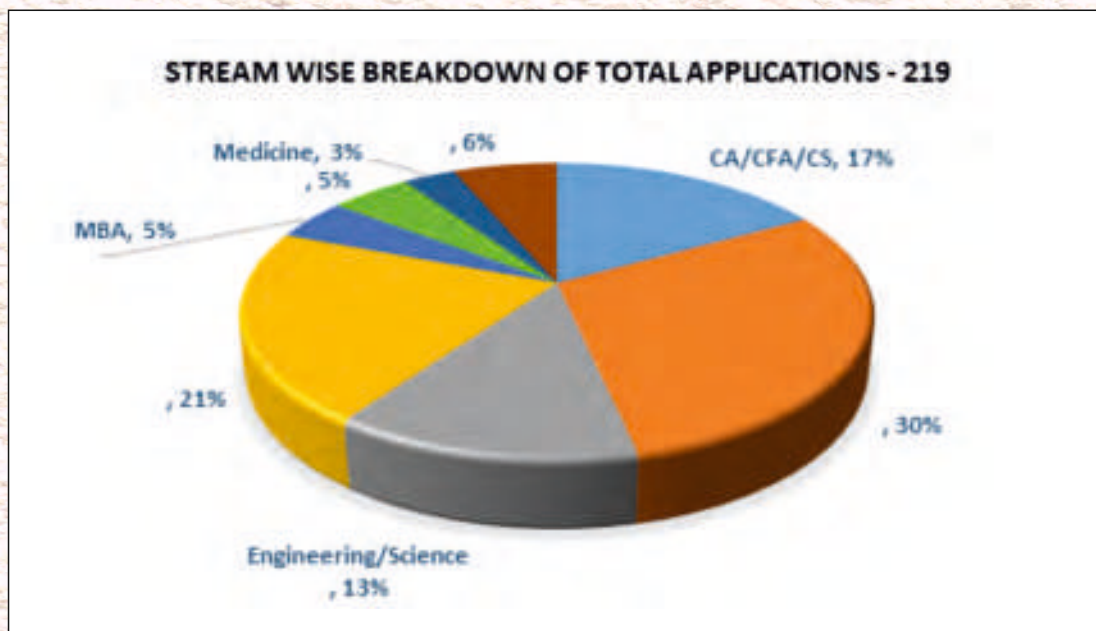

Quick snapshot for MVPM 2023 Scholar Award applications:

The last two editions of MVPM Scholar Awards had 139 and 140 applicants respectively. **The current edition has received a whopping 219 applications, which is a testament to the growing impact and popularity of these awards in our community.**

We have also seen a healthy increase in the number of female candidates from our community applying for these awards with the gender ratio Male : Female breaching 60:40 mark this year.

Every year, we reassess the list of disciplines as categories for reference so that there is no bias towards any specific domain and yet we continue to keep up with the times wherein more and more study pathways and career options are available for the youth. *Just to highlight this phenomenon, we had an applicant who graduated with majors in humanities from IIT Bombay and an applicant who has a specialised degree in music from a leading school in Valencia, Spain!*

Please find below the breakdown of the 219 applications received this year across various disciplines for MVPM Scholar Awards 2023:

Selection Process:

Our commitment to objectivity and fairness is aptly reflected in the meticulous selection process that consists of three broad stages:

- **Round 1: Screening** | The application is submitted via the official MVPM Scholar website through an online form that consists of basic information and details of the academic journey, key milestones and achievements. The primary objective at this stage is to check whether the applications meet the eligibility criteria such as month and year of graduation, member of Maheshwari community, recognized academic degrees etc.
- **Round 2: Scrutiny** | A detailed application form (to be signed physically by the applicant and their parents; scanned copy for submission) is shared with the eligible candidates and details are requested along with proofs of their degrees, scorecards, accolades etc. Once the detailed application forms with documentation is received (subject to a deadline), they are assessed and rated numerically against the following variables on a pre-defined scale that is normalised with relevant weightages for objective assessment:

Academic Excellence Assessment:

Rigorous scrutiny of academic records, achievements, and performance is conducted to identify candidates with consistently high academic standards. This includes a thorough evaluation of grades, standardized test scores, academic recognition and excellence.

Institution & qualifying degree/ pathway:

The ranking of an institution is a key criteria considered for the profile assessment. The institutions are colleges, universities, and autonomous bodies etc. that award the degrees or a pathway unlocked by meritorious candidates only. We use several yardsticks that are relevant for the different streams to assess the ratings. Eg. For domestic universities we consider the NIRF rankings, for foreign universities we consider

QS Global rankings etc. Pathways such as Civil services and degrees awarded by autonomous bodies such as ICAI are measured on a separate baseline to ensure that there is a level playing field for all applicants.

Holistic Achievement Evaluation:

Beyond academics, we recognize the importance of a well-rounded individual. Candidates are assessed for their involvement in extracurricular activities, leadership roles, and notable accomplishments in areas such as sports, arts, or community service.

- **Round 3: Jury | Final round** that consists of an eminent jury board that interviews the candidates shortlisted in the Scrutiny round.

As a practice, we always strive to get feedback from the jury panel on selection process and continuously strive to improve the entire process of evaluation and make it as objective as possible.

The scores from the Scrutiny round are considered as a baseline for the final interviews conducted by the Jury board. Additional elements come into play in the final round as follows:

Personal Statements and Interviews:

Applicants are given the opportunity to share their personal journeys, aspirations, and the impact they hope to make on the community. Personal statements and interviews allow the committee to understand the candidates on a deeper level, beyond their academic and extracurricular achievements.

Anonymous Review Process by the Jury:

To eliminate biases, our selection process ensures that the reviewing committee does not have access to the applicants' personal information during the initial stages. This anonymity fosters an objective evaluation based solely on merit and data.

A weighted average of the scores from the scrutiny round and the final interview are usually considered to arrive at the final shortlist of the awardees.

**The decision taken by the eminent jury board to identify and award the final list of recipients of MVP
M Scholars and Promising Scholars shall always be final & binding.**

By adhering to these rigorous and scientific selection methodologies, we strive to maintain the integrity and prestige of our scholar award program. The chosen recipients will not only be scholars but future leaders who embody the values of excellence, leadership, and service.

As we gather to celebrate the accomplishments of our community's brightest minds, let us collectively embrace the spirit of nurturing and empowering the next generation of leaders.

Best regards,

Ayush Kalani

Chairman, Award Scrutiny Committee

Dr. Vasantji V. Bang Ph.D (BITS, Pilani)

Dr. Vasantji Bang is a professor of management and strategic management advisor to corporates. He holds PhD from BITS, Pilani. He was the founder member and later Secretary and Chairman of MVPM's Maheshwari Scholar Awards Committee.

MVPM Maheshwari scholar Award Program

The Genesis

Maheshwari community is considered to be one of the leading business communities in India. Economic contribution of Maheshwaris has been well acknowledged. While being at the forefront of business, industry and trade, Maheshwaris have achieved exceptional feats in educational pursuits too. But business achievements of Maheshwaris are so overwhelming that the community's academic achievements go unnoticed. Having realized this Maheshwari Vidya Pracharak Mandal (MVPM) decided to make its humble contribution towards correcting this perception. As a step in that direction MVPM instituted MVPM's Maheshwari Scholar Awards in 2012 aimed at giving academic recognition to the community which it deserves. The awards recognize extraordinary scholastic achievements of such Maheshwaris who can serve as role models for the youth of our community.

The Award

The MVPM's Maheshwari Scholars are identified from among Maheshwari students all across the globe with outstanding academic records in higher education. They come from very diverse backgrounds like Engineering, Medical, Finance, Management, Law etc. Besides, Ph.Ds & UPSC qualified candidates are also eligible to apply. In selection of awardees there is no fixed number of awards for various educational disciplines. In extreme case all can be from same discipline & none can be from a specific discipline. Neither is any consideration for gender or economic background of applicants. The applicants are evaluated primarily on their scholastic achievements.

In all there are three category of awards, viz. Maheshwari Scholar Award, Promising Maheshwari Scholar Award and Emerging Maheshwari Scholar Award. Each Maheshwari Scholar & Promising Maheshwari Scholar is given a Gold Medal besides Citation. Emerging Maheshwari Scholars are given a citation. In order to recognise any exceptional talent among chosen awardees there is a provision for Outstanding Maheshwari Scholar Award. Besides, a 'Maheshwari Scholar Icon' award in the form of a citation is given to a senior Maheshwari for his/ her scholastic contributions over several years.

The Selection Process

To be eligible for awards one needs to apply in a structured format specified by Scholar Committee. There is also provision for online submission of application forms. There is no provision for nomination in student category. Only candidates who have passed their under-graduate (UG) or Post-graduate (PG) exams or obtained Ph.D or qualified UPSC between 1st October of preceding year & 30th September current year are considered eligible.

From all the applications received, applicants with outstanding scholastic record are shortlisted for a telephonic interview with a jury comprising people who have themselves been scholars and have related achievements to their credit.

On the basis of evaluation by the jury a certain number of awardees are chosen as Maheshwari Scholar, Promising Maheshwari Scholar and Emerging Maheshwari Scholar. Maheshwari Scholar Icon awardee is nominated and chosen by the Managing Committee. There is no provision for application in this category.

The Scholars

The applicants for Scholar awards come from all across the globe including Australia, USA, UK, Germany, Spain & Japan. Within India they come from various states like Andhra Pradesh, Chhattisgarh, Gujarat, Karnataka Madhya Pradesh, Odisha, Rajasthan, Tamil Nadu, Telangana, Uttar Pradesh, West Bengal, and of course Maharashtra.

Over the years Maheshwari Scholar Awards have been scaling newer heights in terms of scholastic achievements. Here is a sample of few achievers. Dr Dinesh Bharadia the recipient of Outstanding Maheshwari Scholar award was included in Forbes list of America's top 30 under 30. Dr Zarana Maheshwari, completed her Ph.D in English Literature with flying colours despite having lost her eyesight. Nishant Totla, the 2012 awardee had received all India rank 2 in IIT – JEE, which is described as world's toughest entrance exam. Another scholar Sanjay Navandhar achieved all India rank 1 in the prestigious CA exam. Laya Maheshwari, one of the awardees went for further studies to Harvard Law School. Darshit Jaju, an IIT – IIM alumnus, was included in The Economic Times top 50 Emerging Leaders of Corporate India.

Eighty four Maheshwaris who received Scholar and Promising Scholar Awards in last seven years include fifteen Ph.Ds from top global universities like Stanford, Cornell, Massachusetts University and INSEAD etc; twenty one engineers from IITs, BITS, Pilani, Georgia Tech, etc; eighteen doctors including super specialists like DM and M.Ch and alumnus of AIIMS, New Delhi; thirteen finance professionals including CA AIR 1, 3 & 5, CS AIR 2 and CMA AIR 8; nine management postgraduates all from IIMs or XLRI; five Public Service Exam qualifiers like IPS, IRS etc; and three from humanities side from top institutions like Cambridge University, London School of Economics, and New York University. Profile of 105 awardees is as follows:

India	(ICT, Bombay; IIT, Bombay; IIT, Indore, MNIT, Jaipur, Central University of Gujrat)	6
USA	(Cornell University, Georgia Institute of Technology, Massachusetts University, Ohio University) Missouri University of Science & Technology, Stanford University)	6
Australia	(Deakin University)	1

The Evolution and Way Ahead

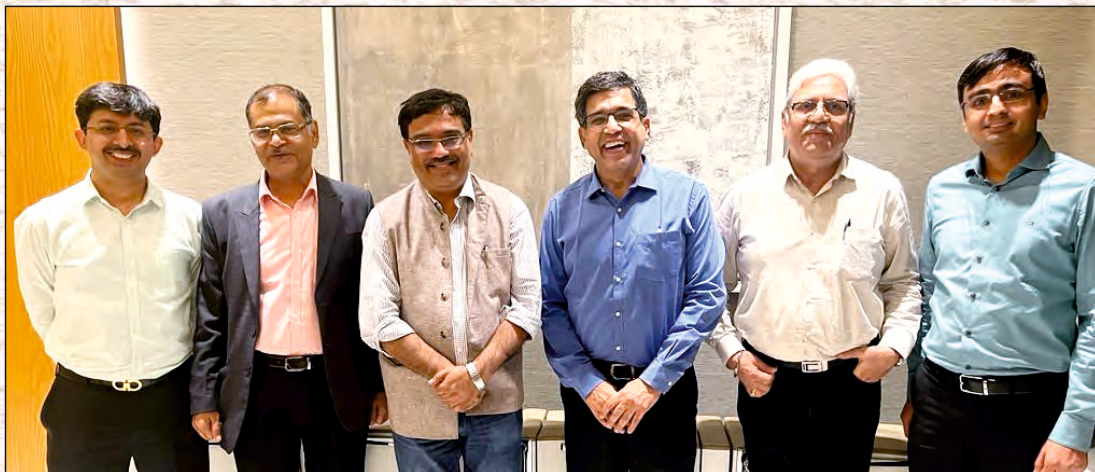

In the first year awardees were chosen from engineering and medicine disciplines. In all five MVPM's Scholar awards were given in the first year. Each award comprised a cash component of Rs 50,000 and a citation. Gradually, over the years, new educational disciplines were added to the award category and now it is free for any discipline of higher education. With increase in the number of applicants from all over the globe, it was decided to not only increase the number of awards to be given each year but also Promising Scholar category was newly created. Later on Outstanding Maheshwari Scholar award category was also created but only as an exception. It has been restricted to only the cream-da-la-cream among the scholars. In last seven years this award has been given once.

The selection process also evolved with experience to include a telephonic interview round. It was realized that all those who get shortlisted for interviews but do not qualify as Scholars or Promising Scholars also deserve to be recognised for their scholastic achievements. As a result a new category of awards, the Emerging Maheshwari Scholar, was added.

A new category of award titled 'Maheshwari Scholar Icon' was instituted in 2018 to honour a senior Maheshwari for his/ her scholastic contributions over several years. The maiden Maheshwari Scholar Icon was presented to Professor (Dr) Rajat Moona, Director, Indian Institute of Technology (IIT), Bhilai.

The mission of promoting world class academic excellence in higher education should guide all future decisions and activities related to scholar awards. Completely impartial selection of awardees by independent jury with impeccable academic credentials has been the key to success of scholar awards over the years. More than recognising the talent of outstanding Maheshwari students, the scholar awards have become a platform to showcase world class excellence and inspire the future generations of Maheshwari community. Experience of last seven years shows that almost all scholars are recipients of multiple awards, scholarships and fellowships that too from very reputed organisations and yet Scholar award holds a special place as it comes from the community. It is worth reminding ourselves that 'MVPM's Scholar Award' was rechristened as 'MVPM's Maheshwari Scholar Award' to lend that community feeling to the awards. This sanctity has been upheld all through thanks to the generous sponsors who never expected that their names be included as part of the medal, citation or even on banners as presenters of the award. MVPM can take immense satisfaction in the fact that MVPM's Maheshwari Scholar Awards have outgrown and have become a part of entire community's treasure.

JURY MEMBERS

Jury Members left to right - Uttam ji, Gopal ji, Dr Pravin ji, Manoj ji, Rajeev ji, Punit ji

Mr. Manoj Heda

CA, ICWA, Executive Director, Bharat Petroleum, On board of SGL

With over three decades of experience, he is, currently the Executive Director of International Trade at Bharat Petroleum Corporation Limited, boasts a versatile background in Finance and International trade functions, including Treasury, Corporate Finance, SAP Implementation, Risk Management, and Commodity trading. Previously serving as CFO at Bharat Oman Refineries Limited and Bharat Shell Limited, he played a pivotal role in the latter, a joint venture of Shell and BPCL.

Shubham Lohiya

Hailing from Aurangabad, Shubham is pursuing his Masters in Computer Science at Georgia Tech with a Machine Learning Specialization. He is a part of the Pathology Dynamics lab at Georgia Tech, where he works on Information Extraction and Natural Language Processing technologies in the biomedical domain.

He has also interned at top US tech companies like Adobe and Amazon, where he designed cutting-edge Artificial Intelligence systems. He previously completed his B.Tech. (Hons.) at IIT Bombay in 2022.

He was ranked 1st in his department and was awarded the Institute Silver Medal. He has several publications at top AI conferences and a patent submitted to the US Patent Office. He aspires to venture into the realm of entrepreneurship, establishing a company that harnesses the power of artificial intelligence to address critical challenges.

Vivek Loya

Vivek, a Udgir native and MBA graduate from Faculty of Management Studies, Delhi, excels academically and in leadership. Top 10% at FMS, he led the college's Student Executive Body and managed North India's Largest B-School Fest. Prior, he earned a BTech in Mechanical Engineering with an 8.9 CGPA from Vishwakarma Institute of Technology, Pune. He began his career at a Fortune 500 Company, Principal Global Services, securing a Pre-Placement Offer before his MBA.

Vivek's achievements include CAT 2020- 99.7%ile, two MTSE scholarships, NIMO- National Rank 105, IMO- International Rank 339, IPM- National Rank 258, and a Silver Medal in Kung Fu Championship. An MVP alum.

In his professional journey, Vivek secured a PPO from Amazon and currently works as a Program Manager under the Amazon Future Builder Program (AFBP). Achieving success in six months, he won awards like the Champion Club Award and AFBP Got Swag Case Study Competition. Beyond his career, Vivek is an avid traveler, exploring 20+ destinations in 2023, and a diverse personality with interests in reading, cricket, and playing the Ukulele.

Sakshi Maheshwari

Sakshi is hailing from Burhanpur, Madhya Pradesh. Coming from a humble background, Sakshi's parents prioritized providing her with the best education. Achieving an impressive 99.84%ile in CAT opened the doors to India's premier B-schools, leading her to pursue an MBA at the prestigious IIM Bangalore. Before this, she earned her degree in Electrical Engineering from NIT Bhopal.

During her MBA journey, Sakshi earned the coveted 'P&G Emerging Leader' title from Proctor & Gamble and secured a Pre-Placement Offer from Accenture Strategy in 2022. Her academic excellence at NIT Bhopal was recognized with a scholarship from the MP Government, covering her tuition fees.

Embarking on her professional journey, Sakshi started as a Management Consulting Analyst at Accenture Strategy in 2023, emphasizing her commitment to personal and professional growth. Beyond her corporate endeavors, she has a commendable background in social initiatives. She contributed to Atypical Advantage, a startup focused on employment opportunities for disabled individuals in India. During her B.Tech., Sakshi was actively involved with Aaroha, an NGO dedicated to educating underprivileged children in Bhopal's slum areas.

Mr. Rishabh Mundhada

Hailing from Nagpur, Rishabh, distinguished himself by earning an MBA from the prestigious IIM Bangalore in 2023. Prior to this, he attained his engineering degree from BITS Pilani, securing an impressive departmental rank of 3. His professional journey commenced at JP Morgan's Investment Banking division, where he garnered valuable experience over a 2-year period after receiving a pre-placement offer in 2016.

Following this, he contributed his expertise to Oyo as a Performance Manager for European and Middle Eastern properties for another 2 years. While pursuing his MBA at IIM Bangalore, Rishabh's outstanding capabilities were recognized when he received a pre-placement offer from Bain & Co. in 2022. Currently, he holds the position of Associate Consultant at Bain & Co., showcasing his commitment to excellence and continuous professional growth.

Beyond his professional pursuits, Rishabh indulges in his passion for sports, with a particular affinity for cricket, both as a player and spectator. Additionally, he actively engages in long-term stock market investments, demonstrating his financial acumen and strategic approach beyond the realms of his professional responsibilities.

Tejas Sarda

Doctor turned civil servant, Tejas cleared UPSC CSE 2022 to become an Indian Railway Management Service(IRMS) officer.

Before this he pursued his MBBS from prestigious Seth G S Medical college & KEM hospital, Mumbai. In std XII he had secured Rank 8 during MHT CET-2014, simultaneously qualifying for National Olympiads of Biology & Chemistry.

He has received multiple academic accolades including NTSE scholarship (2010), MTSE scholarships (2010-12), INSPIRE awards, Homi Bhabha exam, 7th scholarship among others.

Tejas is fond of reading just about every genre with fiction being his favourite. He loves to dance, gymnasium, trek, gardening, playing lawn tennis, watch variety of movies in his free time.

His philosophy is to be an 'ETERNAL LEARNER'. His dream is to be an IAS officer and be the best at that!

Sanskriti Somani

Hailing from the vibrant town of Badnawar in Dhar, MP, Sanskriti earned her stripes in Electronics with a B.Tech degree from the prestigious IIT BHU. Her academic journey has been nothing short of stellar, with an impressive AIR 49 in UPSC CSE 2022, a perfect 10 CGPA in Class 10, and a commendable 90.8% in Class 12. Sanskriti also made her mark in the IIT JEE with an AIR of 2235.

Adding a professional feather to her cap, Sanskriti has contributed her skills to Goldman Sachs, showcasing her prowess in the corporate realm.

Beyond academics and the corporate world, Sanskriti is a multifaceted individual. She not only clinched the IIT COLOR award at IIT BHU but also held the prestigious position of Joint General Secretary of the Sport Council. Her passion for sports shines through, exemplified by her Volleyball Silver Medal in the Inter IIT tournament.

Rushikesh Zawar

Hailing from Aurangabad, Rushikesh graduated with a department rank 1 from BITS Pilani, Pilani Campus with a B.E. Computer Science and M.Sc. Biological Sciences. He further studied and completed his undergrad thesis at Harvard University in USA. His research at Harvard was fully funded with various scholarships like Khorana Scholarship. He received 80% fee waiver scholarship at BITS Pilani for his whole degree for being in the top performing 3% of the eligible students.

Rushikesh secured First Rank in School in Maths & Science Olympiad and MTSE in the year 2013, 14 & 15.

He secured multiple graduate program admissions from Harvard University and Carnegie Mellon University (CMU). He is now pursuing a graduate program in Computer Vision at CMU. He secured various scholarships like JN TATA, KC Mahindra, etc. to pursue his graduate studies. He has also been selected for various prestigious research programs at Hiroshima University (Japan), CMMRS (Germany), etc. He has also worked as a researcher at Massachusetts Institute of Technology (MIT), USA, Applied Scientist at Amazon, and part-time researcher at Tata Institute of Fundamental Research (TIFR) and CEERI. He has also published many of his research work at top journals/conferences.

Note - Above Names are arranged an Alphabetically (Surname) and does not show rank.

INAUGURATION OF NEW FACILITIES AT V N LAHOTI HOSTEL, PUNE.

On the auspicious day of 6th January 2024, a grand inauguration function unfolded at VN Lahoti Hostel of MVPM (Maheshwari Vidya Pracharak Mandal), Pune, marking a significant milestone in the institution's history. Established in 1962, VN Lahoti Hostel has long been the preferred residence for Maheshwari students pursuing education in Pune. What began with a humble capacity of 60 students underwent phased development over the years, accommodating up to 160 students until recently. The hostel boasted essentials like a small ground, a TV hall, and a mess, but with the changing times and evolving student expectations, the management of MVPM envisioned a comprehensive redevelopment of the entire premises.

Capitalizing on altered government regulations that granted a substantial Floor Space Index (FSI), the management seized the opportunity to not only increase the student capacity but also introduce modern recreational facilities. While the FSI could have allowed for the accommodation of 450-500 students, a paradigm shift in thinking led to the decision to focus on quality over quantity. The capacity was deliberately limited to 313 students, allowing for the creation of a state-of-the-art student hostel.

The additional FSI was ingeniously utilized to incorporate modern amenities, including a 1200 sq.ft. gymnasium equipped with contemporary exercise equipment, a library cum reading rooms capable of hosting 120 students, and a multi-purpose hall with cutting-edge audio-visual equipment and acoustics, accommodating up to 250 students. This versatile hall could be divided into two separate spaces for smaller gatherings. The revamped students' mess, now air-conditioned with improved seating arrangements and a kitchen equipped with ultra-modern facilities, provided a more enjoyable dining experience.

The terrace atop the building, furnished with proper shading, became a versatile space for hosting open functions. One of the major highlights was the introduction of a multi-sports turf ground, utilizing artificial turf for sports like cricket, football, volleyball, badminton, etc., and also serving as a venue for MVPM's public functions accommodating over 500 people.

In addition to these facilities, a dedicated office space for the administrative staff was created alongside a meeting hall, facilitating discussions for volunteers and committee officials. The magnitude of this undertaking would not have been possible without the invaluable support of generous donors.

Generosity flowed as donors rallied behind MVPM's vision. The major contributors and the facilities they sponsored include:

1. **Tai Karwa Tower:** Housing major facilities like the kitchen, dining hall, and multi-purpose hall, this tower is Sponsored by Shri Shrikantji Karwa and Karwa family, of Catapharma Ltd, Nashik
2. **Clean Science Tower:** This tower is sponsored by Clean Science and Technology Ltd. through its donors, the Boob family and Sikchi family.
3. **Turf Ground:** Sponsored by Shri Sujitji and Shri Sanjeevji Kela, of Kela Family, the founder and promoter of NPAV-Net Protector Antivirus
4. **Shrikantji Rathi Memorial Hall:** A State-of-the-art, air-conditioned Multi-purpose hall is named after Late Shrikantji Rathi which is sponsored by our long-time donor, the Rathi family
5. **Bhojan Kaksh (Kitchen and Dining):** Sponsored by the Bang family from Solapur.
6. **Swagatkaksh:** Sposored by Shri Shriramji and Shri Shrikantji Soni, Pune.
7. **Gymnasium:** Equipped with multiple modern equipment, this air conditioned gymnasium is Sponsored by Dr. Madhusudanji Zanwar.
8. **Landscaping and the Bhau Katta:** A dedicated place for mingling of the students with beautiful landscaping is named after the Late Durgabhau Kasat, sponsored by his sons Manishji, Ashish and Girishji Kasat.
9. **Indoor Sports Facility:** A 2500 sq ft hall for indoor games like table tennis, carom, and chess.
10. **Takshshila (Reading room cum Library):** The heartbeat of MVPM lies in its volunteers, and a group of VN Lahoti hostel's 2000 batch known as the 'Tiger Group' to the creation of an air-conditioned, state-of-the-art library cum reading room
11. **Apart from these major donors, over 35 individuals have donated for the individual hostel rooms, many of them are alumni of the hostel.**

The momentous inauguration ceremony was graced by the esteemed presence of Padmabhushan and Padmavibhushan Dr. Manmohan Sharma. A vibrant ceremony unfolded on the newly developed turf ground, witnessing the participation of over 600 people. Each donor was felicitated by the chief guest, and a documentary showcasing the contribution of each donor added a personal touch to the program. The event marked not just the physical transformation of VN Lahoti Hostel but also celebrated the spirit of community, generosity, and commitment to quality education that defines MVPM.

GLOBAL STAR AWARD

MVPM Maheshwari Global Stars Awards 2024

**Recognize Young Talent
in Arts and Sports**

Pune, India- The Maheshwari Vidya Pracharak Mandal, Pune, India, recently hosted the inaugural Maheshwari Global Stars Awards to honor exceptional young talents in the fields of Arts and Sports. The event, held on 20th January 2024, was a celebration of outstanding achievements and a testament to the organization's commitment to nurturing budding stars.

The awards recognized 12 remarkably talented children in the age group of 8-22, who have demonstrated exceptional prowess in their respective domains. Each awardee was presented with a Gold medal prize of 1 lac, marking a significant milestone in their budding careers.

Distinguished personalities graced the occasion, with Sharad Soni, President of All India Maheshwari Yuva Sanghatan, serving as the Chief Guest. Mr. Nitin Nyati, MD Nyati Group, was the Guest of Honour, adding to the grandeur of the event. The presence of Atul Lahoti, President of MVP, and Shekhar Mundada, Chairman of MVP, added to the prestige of the occasion.

The Maheshwari Global Stars Awards is set to become an annual affair, aiming to provide a platform for young achievers to shine and receive the recognition they deserve.

The event was a resounding success, and the Maheshwari Vidya Pracharak Mandal looks forward to continuing its support for budding talents in the years to come.

CA Yogeshji Birla

CA Yogesh Birla Director of Birla Solar Project Co. India's top ranker Chartered Accountant having 25 years of experience in Investment Banking with expertise into Solar Power Projects and Green Energy Wealth Management for investors across the world. He is renowned speaker on various industry, trade and government platforms, where his love of sharing knowledge is evident by renowned investors and family investment offices. The views expressed herein are just knowledge sharing and not for any investment decisions.

Social Balancing of Employment and Entrepreneurship – Solar Green Energy

As the year 2024 beginning and we are set to step into a new year, it's time to take a look at how the year 2023 was for the Indian economy in general and for some of the key sectors eg. Solar Green Energy, in particular. It goes without saying that the pandemic has radically reshaped the way we live, we think and we work in more environment friendly ways. Government and businesses reacted with speed and agility to keep societies moving forward as best as possible, with environment friendly business practices. In 2023, we have seen transformative changes sweeping through the Indian Solar Power sector. Emerging India is well on its way to achieving its target of 450 GW of renewable energy capacity by 2030, with solar power leading the way. The country ranked third in the Renewable Energy Country Attractiveness Index by EY in 2021, with the United States retaining its top position, followed by China. Quantum of sunshine that strikes the Earth exceeds the world's total energy needs. It certainly requires a proactive response to the challenges and opportunities at hand. Lower cost of capital, awareness for renewable energy, adapting new technology etc are emerging as the driving force behind this response, offering means to overcome obstacles, meet customer expectations, and unlock new possibilities for installation of Solar Power projects or rooftop solar power solutions or solar equipment manufacturing & trade.

Maheshwari keep reputable tag as very hard workers, loyal and dedicated work-force across corporate sector, we are inbuilt financial wizards, perfectly used by business houses across the globe. We all know, India is emerging economy and supported by all the companies and governments from across the world with investments, with new technology collaborations and with largest set of domestic consumers. This is the right time for our society to bridge the gap between Employees v/s new Entrepreneurs. We can talk about Solar Green Electricity business in various aspects for identifying new avenues of entrepreneurship from a micro entry level business to a unicorn size business, sky is the limit in Solar Power business. And in recent years, there have been several innovations led by emerging technologies around Solar Panels, Inverters, Solar Storage Batteries and balance of control systems that help to automate the process of solar plant monitoring. These are latest avenues for setting up businesses (manufacturing, import, trade, installation, government subsidies etc.) in Solar Power sector :

- **Solar Panel Manufacturing** : This business can be setup from assembly to manufacturing of Solar Panels and having huge market from solar street lights to grid connected mega solar projects.

- **Building-Integrated Solar PV (BIPV)** : Indian cities where are filled with skyscrapers, (BIPV) panels could easily contribute to the generation of solar energy without detracting from a building's aesthetic appeal.
- **Floating Solar PV Panels** : Lakes and Reservoirs provide huge opportunities to install Floating PV modules for producing solar energy. Few floating solar projects are set to be installed under the Flexibilization Scheme.
- **Micro-Inverters** : Solar energy is converted into electricity using a power inverter. The recent technological advancements in the inverter have led to microinverters being introduced, which are far more efficient and safer.
- **Solar Storage Batteries** : Solar power storage batteries allow users access to solar power even when the sun goes down. Depending upon the size of the batteries, it can power anything from a house to a wide range of appliances.
- **Power Monitoring Systems** : Solar power systems now come with their own monitoring system that is easily accessed through an app or the web. Leveraging the Internet of Things (IoT) and the cloud, customers now have access to their solar system via an app.
- **Solar Rooftop Installation** : Indian industries, commercial establishments and household having huge market for rooftop installation of solar projects and generate own green electricity with small investments and government subsidies, many entrepreneurs have become big business tycoons in this business.

Solar is such a vast subject, I can write hundreds of pages with my experience of last 17 years in solar projects, and as our social governance, our expertise is always available for entrepreneurs of our community. India is emerging and taking a new shape with balancing of production and consumption in domestic market with ease of funding. This is the right time for Maheshwari samaj to bring more entrepreneurs, which can further generate huge employment in this sector for our community members. Employment is always for feeding self and home, but creating business is like feeding a community or helping national economy at large. Since many years, I have closely observed working of MVPM and its best initiative of MVPM to create awareness on social entrepreneurship, awarding scholarship and in future those scholars will become entrepreneurs and raise society to the new heights. Wish all the best for MVPM managing committee for best blended efforts for Education, Employment and Entrepreneurship.

EXPANDING CAREER HORIZONS with advances in Digital Technologies. . . .

We enjoy the performance of a Mimicry artist when he presents before us different subjects copying their individual unique Styles of behavior, language, voice, tone, voice modulation, facial expressions, body language, habitual acts and even dressing style. Superb is the performance when he can integrate all these, through his observations and actions, close to the original subject... as if the individual subject itself is in front of us!

When we appreciate his performance, we are actually recognizing his acquired skills of recognizing various patterns in different circumstances and replicating them by integrating relevant elements of their behaviours accurately. It is the result of complex actions by his brain, simultaneously on different planes and levels. To carry out this performance, his brain has to first collect and store so much data through his observations and enrich it further through his analysis., create his own models of his subjects and then train itself to perform accordingly!

Well, when Digital Technologies are employed to simulate such complex functions of Human intelligence, we term it as “ARTIFICIAL INTELLIGENCE (AI)”...

Today, AI has become a buzzword to transform various areas and fields encompassing human life including health care, entertainment, safety, Security & surveillance, Transportation etc. The Digital technologies used in the transformation include, IOT, Machine Learning, Augmented & Virtual Reality, Big Data, Block Chain, Quantum computing etc. With advanced sensor & signal processing technology, it has become possible to develop solutions with Autonomous functioning features for a wide range of applications. No wonder, all such New technologies are being coined as “Disruptive Technologies” and are creating a massive impact on various walks of life.

It has also started transforming different segments of Business & Industrial processes in a very rapid manner.

The major disruption is seen in the manufacturing sector in this age of “Industry 4.0” – the Fourth Industrial Revolution! This transformation leads to 'Autonomous Production Processes. This is a stage that adds Decision making to the Automated processes and thus enhances the productivity with built in reliability, while ensuring better quality output from these processes. This is done with a web of machines, sensors and other active devices, formed through Internet. Business process transformation also has not remained untouched and we find the new technologies like Big Data, Data Analytics etc. Have enhanced the capabilities of functions like Finance, Marketing, Business Intelligence, Decision making and so on...

These dynamic changes have brought with them, new career opportunities, Business opportunities and wide scope for an innovative mind! To cash in on these opportunities, one would have to acquire specialized knowledge and develop application skills. Skills like creative & critical thinking are competing shoulder to shoulder with the technical skills.

Let us understand some of these emerging careers that have exponential growth potential in days to come . . .

AI Specialist

An AI Expert is expected to design and develop products & provide solutions to address challenges faced by the user in specified application. He needs to acquire skills and expertise in various areas of technologies. Integration of the acquired skills is also a necessary skill for the AI specialist. The applications could range from manufacturing to Business processes, and from simple domestic applications to complex multi-dimensional problems.

Machine Learning Expert

A machine Learning specialist is responsible to develop self-sustainable software to automate crucial & predictable models of variety of tasks and function in autonomous mode. Uch applications are increasingly encountered in manufacturing with the culture of Industry 4.0 gaining ground because of visible benefits.

Robotics Programmer

Robot Programmer is becoming a person in demand as Robots have increasingly formed an essential element of a flexible manufacturing system. Cobots (Robot with Human interface) are also being employed on assembly lines.

Data Analyst / Data Researcher / Big Data specialist

These catagories of persons deal with large amount of Data but for varying functions. A Data Analyst would collect and review information from different sources and derive data required for Decision making, using statistical & analytical techniques. While yhe A Data Researcher's role involves investigation to understand and tackle unknown areas, the Big Data Researcher is responsible to build eco system for efficient interactive business systems

Network Manager/ Cloud Manager

Envisaging and building IT infrastructure and maintaining them efficiently is the prime responsibility of these specialists. They need to be aware of the future needs of the concerned businesses, upgradation strategies, fast changing technologies etc.

Cyber Security Specialist

With growing need to protect the operating infrastructure & critical software for safety & security pf the Businesses and the data generated, a Cyber security Specialist has to serve as watchdog and work for any threat intervention and prevention.

User Experience (UX)S Executive / Business Intelligence Developer

These are relatively new career areas, now considered important for product development & marketing. An User Experience Engineer works on product features to ensure Best user experience based on the collected data whereas the Business Intelligence person would collect data from markets as well as various sectors affecting the Business and provide insights for business decisions. With Business environment becoming more competitive and availability of digital tools turning much easy, these are promising areas.

Presently , lot of work is going on regarding application of Generative AI. ChatGPT is one such example. Generative AI uses Machine Learning to create entirely nrw content in various formats, by analysing large amount of existing data, in respect of common pattern similar to the ones it is trained on. As can it can create large content quickly, it opens many areas of its use like Marketing, Customer are, e-Commerce, Entertainment etc. and can also be a good tool for idea generation. It will open new channels for Imagination, creativity & Innovation.

Besides these, we shall be seeing new pattern of careers with cross functional service applications in various other fields like Medical Diagnostics & consultation, Social Media, Education etc. Thanks to AI, we may find many ideas getting converted to products even with little technical skill.

We can easily foresee exploding opportunities for creativity and Innovations which can trigger exponential employment potential . . . Rising entrepreneurship opportunities too !

Certainly, the CAREER HORIZONS for the youth, are expanding rapidly with these dynamic Technological advances . . .

Education Abroad: Crafting a Meaningful and Worthy Investment

Education Abroad: Crafting a Meaningful and Worthy Investment

The decision to pursue an education abroad is a significant step toward a transformative and enriching experience. It's an investment that extends beyond academic realms, shaping a future filled with diverse opportunities and personal growth. Making this investment truly worthwhile requires thoughtful planning, active engagement, and a willingness to embrace the journey ahead.

Research and Preparation: Choosing the Right Path

Thorough research is key. Explore various programs, universities, and countries that align with your educational aspirations and interests. Consider factors such as academic curriculum, cultural fit, language requirements, and available support services. Engaging in meticulous planning ensures that the chosen program resonates with your goals and expectations.

Setting Clear Goals: The Foundation of a Fulfilling Experience

Before embarking on an education abroad venture, articulate clear objectives. Encourage your child to define academic, personal, and career-oriented goals. Whether it's mastering a new language, immersing in a specific culture, or gaining expertise in a particular field, having well-defined objectives paves the way for a more focused and rewarding experience.

Financial Considerations: Planning Wisely for the Future

Education abroad is an investment not just in knowledge but also in financial terms. Delve into the financial aspects, including tuition fees, living expenses, and potential scholarships or financial aid opportunities. Craft a budget and explore ways to manage expenses while abroad. It's prudent to plan financially to alleviate stress and focus on the educational journey ahead.

Cultural Immersion and Engagement: Embracing New Perspectives

Encourage active participation in the local community. Cultural immersion goes beyond academics and textbooks; it involves engaging with the local culture, traditions, and people. Encourage your child to step out of

their comfort zone, participate in cultural events, and build meaningful connections. Embracing diversity fosters personal growth, broadens perspectives, and nurtures global citizenship.

Safety and Well-being: Prioritizing Support Networks

Ensure that your child has access to adequate support systems, both locally and abroad. Research safety measures, health services, and emergency contacts in the destination country. Maintaining open communication channels and having a support network in place provides reassurance and promotes a sense of security during their time abroad.

Reflection and Growth: Maximizing the Experience

Encourage your child to keep a journal or a blog to document their experiences, challenges, and personal growth. Reflection fosters self-awareness and allows for a deeper appreciation of the transformative journey they are undertaking. Emphasize the importance of learning from both successes and setbacks, as each experience contributes to their overall development.

Conclusions

Education abroad holds immeasurable value, offering a platform for academic, personal, and professional growth. As parents and students, investing time, effort, and resources in planning and preparing for this journey amplifies its worth and ensures a meaningful and rewarding experience.

To students: Embrace this opportunity with open arms, immerse yourself fully, and seize every moment to expand your horizons.

To parents: Support and encourage your child in this journey toward becoming a well-rounded global citizen.

Together, embark on this remarkable educational voyage, paving the way for a future filled with boundless opportunities and growth.

Shri. Ashokji Nawal

- Founder, Bizsol India Services Pvt. Ltd.
- Practicing Cost & Management Accountant
- Central Council Member of ICAI-CMA

FLY HIGH TO ACHIEVE THE DREAM

A person without any ambition or goal, perhaps will live the ordinary life and will be driven by number of circumstances without any direction and will always be considered as silent passenger in the volatile journey.

Each person should set up his/her objective, may be long term and short term. One has to differentiate between vision (dream), mission, objective and value proposition in the life. Once it is determined, such person can face any challenge, turmoil's and ride over the wave of success and always keep flag high and also always raise standard towards the betterment than that of yesterday.

It's not easy. Rather, it is too difficult. Number of environment and negativity across will make all the attempts to vitiate towards the vision / mission and there will be N number of hurdles and obstacles in the life but one has to look such obstacle / hurdle in positive sign and learn from such hurdles and obstacles and override them with determination.

Today, being an only graduate may not be a self-sufficient in such competitive and fast changing world. Artificial intelligence will replace lot of voluminous and routine work and will focus on exceptions. The person who can work on exceptions using all the data analytics and artificial intelligence with positive mindset and determination will always be successful in the life.

We have number of examples; the physical handicapped person can climb Everest only on the determination and overcoming all the challenges in the life. We have the real-life heroes demonstrating writing by fingers of the leg and succeeding and creating the world record. We have number of such stories which should eliminate the fear of failure or fear of handicapness. I strongly believe that God is one of the best judges and always distributes strength and weaknesses in any person equally without any discretion. Those, who convert the weaknesses into the strength and visualize the opportunities in each challenge will be always winners.

There is never the game of losing because each such alleged losing provides lot of opportunities of better winning, if every person looks and analyses the reason of losing and masters over the weak points at the time of losing. Therefore, never get disappointed any time irrespective of whether somebody deceives you or you lose or any other reasons, where you are not happy with the results. Happiness is nothing but the state of mind and even on the failure, we should be happy, since failure of darker colour, any small light also looks much better and such small light becomes the torch bearer for the dark side.

Whether one is the student or one is the businessman or one is the professional, self employed or employed will have so called ups and downs in the life and without that life will be as meals without salt. Therefore, such ups and down are always memorable and provides lot of lessons for marching onwards. Downs provides the new opportunity for growing up whereas ups provide further opportunity for marching further up and such journey always to be welcomed.

Now a days, the word “depression”, “frustration”, “anger”, “anxiety” are so commonly used to justify the failures. These words undoubtedly are not good and should be excluded from the dictionary of the life. However, still it remains, it has to be still welcomed, since it provides the first step towards the success waiting ahead. The best guide to overcome all such negative word and delete such words from dictionary of life then believing in God with most positivity within and meditation.

Let's start believing in god, Be Positive always in any circumstances and ride over the negativities within and across for becoming most successful and happy persons in the life.

Shri. Shivaprasadji Mantri M.E.

Mechanical Engineer with University rank. Former CEO Tata TOYO Radiator Co and former Vice president at VIT Institutes Pune. Consulting Strategist for several SME's, Schools & colleges

A history scholar and speaker on Maratha history. Has authored of several best sellers on Maratha History.

(Authored books on Management)

प्राविण्य, नैपुण्य Proficiency or Expertise

प्राविण्य या नैपुण्य अर्थात Proficiency or Expertise refers to a high degree of competence or skill in a particular domain or area. It indicates a person's capability and competency in performing tasks, often demonstrating a level of mastery or excellence.

Everyone would like to be proficient or expert in the job or profession you are engaged, tasks you regularly perform, career you peruse, business you do and you would like to further enhance it. Attaining proficiency and further enhancing is a journey one has to pursue for life time.

To be proficient and enhance consider following important steps -

Step 1: Setting goals

Step 2: Reasons and hurdles to overcome

Step 3: Fundamentals to be followed

Step 4: Go ahead plan

Step 1: Setting goals - Setting up goals to enhance proficiency involves a systematic and thoughtful process. Here are steps you can follow

1. Self-Reflection: SWOT analysis - Assess your current proficiency level in the specific skill or area you want to enhance. Identify your strengths and weaknesses, pen it down, discuss with seniors / experts
2. Define Objectives: Clearly write down what you want to achieve. Make your goals SMART - specific, measurable, achievable, relevant, and time-bound
3. Search resources and help - List the resources and materials you need to help you achieve your goals. Look for courses, books, online tutorials, mentors, or any other relevant resources.
4. Set up a Timeline: Establish a realistic timeline for achieving goal. Set deadlines for specific milestones to help track your progress.

Step 2: Reasons and hurdles to overcome

1. **आलस्य (Laziness):** Tendency and habit of avoiding or resisting efforts. Consequences include missed opportunities, decline in performance/output
2. **संशय (Doubtful, Fear of failure):** Anxiety about one's ability to succeed, hesitancy in taking risks, missed opportunities for growth and hinderance to achieve goals
3. **भ्रांती (Wrong priority):** Placing emphasis on less important or non-essential tasks over more important or critical tasks. It's consequences hindrances personal and professional growth and non-achievement of goals
4. **अलब्ध भूमिकत्व :** Things, information you think you know it but actually you don't know it - Closed mind, not ready to unlearn and learn, resulting in end of progress and growth

Step 3: Fundamentals to become proficient (from preaching of Sudhanshu Maharaj)

1. **त्याग – Sacrifice** means giving up something valuable or important for the sake of greater purpose, and greatly contribute to enhancing proficiency
2. **ध्यान – Focused** –Ability to concentrate attention and energy on a specific task or goal, it allows you to for undivided attention, eliminate distractions, contributes to better learning and retention necessary for becoming proficient
3. **साधना – Sustained efforts** means consistent and continuous exertion towards a goal over an extended period place crucial role by providing time and dedication for your personal development skill development consistency in efforts leads to profession se
4. **धृती – Determination** the firmness of purpose and the resolve to achieve goal despite challenges and setbacks it provides motivation to persist through difficulties and said wax in acquiring new skills and competencies with steely determination one stage committed to their objective maintaining a resilient attitude and unwavering resolve in achieving proficiency

Step 4: Go ahead plan

1. **Action plan** - Develop a detailed action plan, break it down into actionable steps.
2. **Monitor Progress**- Regularly assess your progress against the established timeline and objectives.
3. **Seek Feedback** - Solicit feedback from mentors, peers, or experts in the field. Use feedback to identify areas for improvement and refinement.
4. **Adapt** - Be flexible and adaptable to changes.
5. **Celebrate Achievements** -Acknowledge and celebrate your achievements, even the small ones, will motivate you to continue working towards your proficiency goals.
6. **Continuous Learning** – Proficiency is an ongoing process, stay committed to continuous learning.

By following these steps, you can create a structured and effective plan to enhance your proficiency in a specific skill or area.

Remember there is no short cut to be proficient, but it's not impossible. That reminds me of a famous proverb
“If he can do it, I can also do it”.

Best wishes !

Shri. Radheshyam ji Bhura

• Successful Entrepreneur

Daughter - God's precious gift !

The visit to huge Life Style, Zara & palladium stores alongside other shop at sky zone, phoenix, with Vandana (and Nirmala), on last Sunday was astounding. (This was one of the rare Sunday I missed Mahalaxmi temple).

Pulling out the list from her purse and taking a carry bag from corner, Vandana went down the passage like a ramp walker, suave and cool, picking up unthinkable item from cluster of merchandise with grace and aplomb - consulting the staff there whenever in a quandary and seeking advice from Nirmala, if required.

Seeing her deftly, manoeuvring about the passages like a gazelle with carry bag was a sight that would make any parent proud and moved to tears. I was so dumbstruck watching her shopping that only when she pulled me out of my chair from corner saying "Chacha let's go, its done"

I realised too late that I should have gone around helping her select the products, instead lazing in a corner.

But then maybe with all my lethargy stuffed in me like a stuffed paratha, I would have been more of a liability than an assets, apart from looking like a toad beside a princess!

I kept wondering how and from where and when she had learnt the art. Obviously it was from Bharati, Suraj, Nirmala, or Sangita, Shobha, Lalita, Kamya, Monika or Gori and Puppy..

But I must say, this teenager did better utilising her knowledge of logistics, soft skills, daughterly instincts, intuition and common sense.

When we got of store, I realised that I entered the premises with a teenager and emerged out of it with graceful, dignified and matured lady.

As her parent, I can ask for no more.

These darling daughters know how and where to spend their wares of happiness, love and energy.

Daughters grow up silently, gracefully and without much ado. They fulfil and enrich our lives by their mere presence. Their love is overwhelming and presence so soothing. Their energy is intoxicating and love enduring. That is why, when they get hurt, the parents feel the pain and tears flow from their eyes; when they are showers with accolades the parents feel like achievers; when they smile the parent feel n i r v a n i c, and when they laugh the parents hear jingle bells in their ears.

In spite of the joy she generates into the lives of her parents and siblings and transforms a house into a blessed home, she sacrifices everything at one stage in life and destiny transports her physically into altogether alien surrounding.

There she picks up life again curing her emotional pain caused by deserting her roots.

In the process she is also expected to weave into the fabric of the extended family and play a supporting and supportive, enhancing the quality of the fabric so woven.

How she manages to do this nobody knows. But with the intervention of a higher force and with invoking the SHAKTI within her, she makes this transformation from affectionate daughter to a caring daughter-in-law to an endearing wife and loving mother possible.

But why these daughters are so painfully selfless I know not! I guess some of the nature's riddles are not meant to be cracked. The best way to respect and honour these daughters is to cherish their presence as **God's precious gifts !**

UPCOMING PROJECTS OF MVPM

CBSE School at Solapur

A new CBSE School, set to thrive in Solapur, envisions a modern CBSE institution on a spacious 2-acre campus at Ramanuj Bagicha. The seven-floor building includes ample parking space and a basement for vehicles. With 40 classrooms, including an amphitheater-style setup for 25% of them, the school offers dedicated spaces such as science labs, a digital library, Apple computer rooms, a robotics lab, an educational museum, a meditation hall, and a play area for younger students. Facilities also include an auditorium for 500 students, three smaller auditoriums, a well-developed playground with sea sand, administrative and reception areas, a trust office, a swimming pool, a water fountain, an amphitheater, an indoor game center, storage rooms, activity rooms, and a Wi-Fi-enabled campus with high-speed broadband. Sustainability measures include LED lights and 100 Kw solar energy generation for in-house needs. The school also provides staff quarters and a guest house for visiting faculties.

Highlights

- Land – 2 Acres
- Construction – 70,000 sq.ft.
- Capacity – 2500 students, 3 Divisions
- Commencement of Construction – April 2024
- Completion of Phase I – June 2026
- Estimated cost Phase I – Rs. 20 Crores

Redevelopment of LL Mundada Hostel Mulund

MVPM's ambitious redevelopment project in Mulund, Mumbai, encompasses four major components. The Boys Hostel, designed to accommodate 150 students, and the Girls Hostel, with a capacity of 100 students, form the residential aspects. Additionally, the initiative includes a Start-up Incubation Center, offering 100 seats and common facilities such as conference rooms and cabins. The Residential Skill Development Center, equipped with classrooms and laboratories featuring essential hardware and software, provides

UPCOMING PROJECTS OF MVPM

a hall that can accommodate 150 students in multiple arrangements. This comprehensive project aims to benefit over 600 students annually, fostering growth and learning. Furthermore, it provides an opportunity for over 60 karyakartas to contribute actively to various projects.

Highlights

- Land – 18,000 Sq. Ft.
- Construction – 55,000 Sq.Ft.
- Girls Hostel – 150 Capacity
- Boys Hostel – 150 Capacity
- Start-up Incubator – 100 Seater
- Auditorium – 300 Capacity
- Commencement of Construction – Jun 2024
- Completion – May 2026
- Estimated Cost – Rs. 50 Crores

Start-up Incubation Center at Pune

A ground-breaking initiative set to reignite the entrepreneurial spirit within the Maheshwari community. Envisioned as a transformative ecosystem, the center will redefine expectations and serve as a catalyst for startup success. Strategically located in Pune, the future center will offer a unique residential experience for up to 20 startups simultaneously, featuring exceptional infrastructure with cutting-edge training facilities. Gourmet meals at affordable prices, a multi-sports turf court, and access to a flourishing entrepreneurial ecosystem will contribute to the holistic approach. Collaborative workspaces, flexibility, and structured incubation and acceleration programs will define our commitment to supporting startups at every stage.

Highlights

- Can Host 20 Start-ups simultaneously – 2100 Sq. Ft. Hall
- Residential facilities along with food – In same premises
- Access to newly developed Recreational Facilities at VN Lahoti Hostel
- Access to Mentors from Maheshwari Community
- Investors Meet and Funding Proposals
- Commencement of Infrastructure – Jun 2024
- Completion – Aug 2024
- Estimated Cost – Rs. 50 Lacs

Launchpad for CA Freshers

MVPM CA Seminar

SEMINAR

Maheshwari community as we all know, is dominating when it comes to finance sector. Be it entrepreneurship or high level finance professionals. Historically our hostels get large number of students those who are studying finance and in particularly preparing for CA courses.

As a value addition we have started conducting a one-day seminar especially for students those who get qualified in CA examinations. Typically, this program is conducted immediately after their results, wherein experienced professionals in the industry and stalwarts from our community guide students in choosing their career path. So far such two programs were arranged wherein we got overwhelming response.

ACTIVITIES OF MVPM

2022

An Enlightening Talk

MVPM **Life Learnings**

The Maheshwari community has a rich history of producing successful individuals in various fields, including business, social work, and various professions. They run the "Life Learnings" program, where renowned Maheshwari figures share their wisdom and insights with students and Karyakartas of MVPM. These enlightening hour-long talks, featuring legends like Shri Radheshyamji Chandak, Founder Chairman of Buldhana Urban Co-operative Credit Society, and Dr. Kriti Bharti, also known as "The Jodhpur Warrior," who has dedicated herself to combat child marriage under the theme "Girls Not Brides," inspire and guide participants in their personal and professional lives.

2022

Opportunities for Women

MVPM **Begin Again**

For Whom:

Women on break in career due to Motherhood, Elderly Care, Travel etc. Women who is seeking work from home/hybrid working opportunities, Women who is seeking part time opportunities.

What:

Helping build confidence of women to Begin Again. Providing them with platform for short duration on job trainings to brush up skills. Maintaining database of job seeker and job giver in this segment

ACTIVITIES OF MVPM

2022

Opportunities for Youngsters

MVPM **Rising Star**

For Whom:

Students at MVPM Hostels, Students coming to Pune for Articleship or Classes, Various students in aforementioned field at Pune.

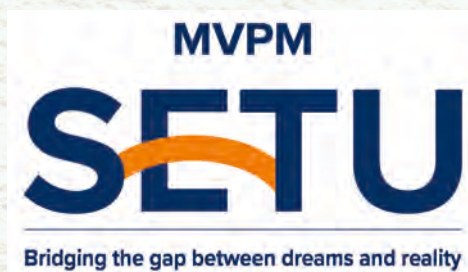

What:

Providing guidance and opportunities to imbibe importance in youngster's mind to become "Job giver than job seeker", "Future opportunities" in profession to help them choose right at early stage", "Structured mentorship program" for these students to achieve short term and long term objectives.

2022

Crowd Funding Platform

MVPM **Setu**

MVPM Setu is a crowd funding platform for deserving Maheshwari candidates from the field of education & sports. We intend to wholeheartedly support aspiring Maheshwari candidates through crowd funding generated from the community.

- Backed by 90+ years legacy of MVPM
- Maheshwari community first crowd funding platform
- Talented Maheshwari Community Candidates in the field of education and sports can apply or the same
- MVPM Setu tries to deliver a seamless process for the applicant as well as the donor.

MVPM HOSTELS

Many students in Maharashtra from small cities, towns and villages migrate to big cities like Pune, Mumbai etc. for their higher education, professional courses, preparation for competitive examinations etc. and of course for starting their careers in employment or as self-employed professions.

Migrating from small towns to big cities is not an easy journey. Starting from money, guidance for taking admissions, local guardians, remaining in good company (Satsang) has always been a concern not only for students but their parents as well. In case of girl student, the challenge is many fold.

MVPM's Hostel Initiative – Understanding this NEED and CHALLENGES faced by students and their parents, our visionary founders have started providing the hostel facilities for these students. Pune being an education hub, was their preferred location.

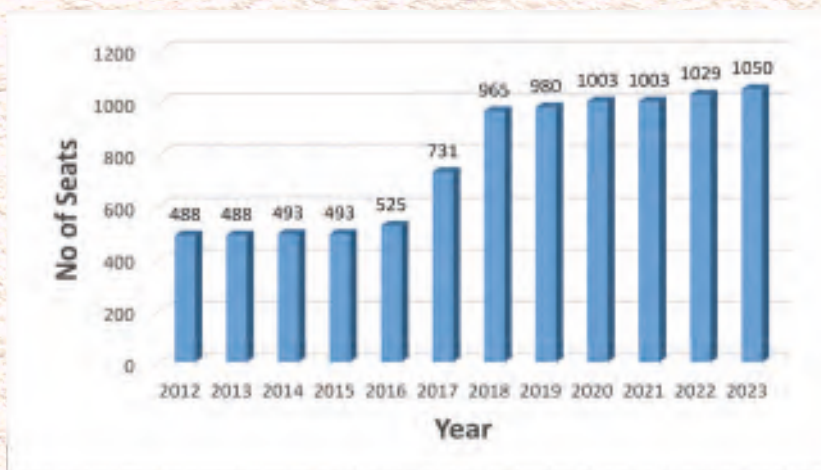

Today we have total 8 hostels in Pune and 2 hostels in Mumbai. Over 1000 boys and girl students are availing this facility.

All our hostels are having state of the art facilities including wi-fi connectivity, air conditioned study

rooms and libraries, laundry service, CCTV cameras and 24 hours' security, students are provided with counselling services, mentoring by seniors and ex-hostelries, scholarships for meritorious students and free ship for needy students. The food served is of extra ordinary quality which is prepared and served in a hygienic environment.

MVPM HOSTEL CAPACITY CHART FOR LAST 10 YEARS

In the last 10 years, MVPM has more than doubled its hostel intake capacity. From 488 in the year 2012 now it is 1029 seats in 2022. With completion of Airoli Girls Hostel, Redevelopment of LL Mundada Hostel and addition of two towers at VN Lahoti Hostel, the total capacity will cross 1500 seats.

APPEAL FOR DONATIONS

In its journey of over 94 years, Maheshwari Vidya Pracharak Mandal has achieved so many milestones by way of creating hostel facilities, schools, colleges as well helping the Maheshwari youth by providing financial aids under different scholarships. This has helped not only the individuals and their families but it has also contributed in the development of our nation. Students from small towns and villages with very humble background have achieved peaks in their respective fields and have well settled in India as well as abroad.

Several karyakartas who volunteered their Time, Talent and Treasure in making this happen. Of course sustaining and growing such big organization over several decades also requires strong funding. MVPM is very fortunate that it has always received the funding by way of donations from Maheshwari community. On this occasion I would like to express my gratitude to these donors.

Going forward MVPM wants to accelerate its activities and reach out to larger number of students. This growth inevitably requires funds and I am confident that the donations will come not only from the individuals but also from corporate through their CSR activities.

We hereby appeal to all the parents and well-wisher of MVPM to contribute their pie in this noble work.

Sincerely Yours,

Atulji Lahoti
President

Shekharji Mundada
Working President

Sushilaji Rathi
Secretary

Ashwinji Chandak
Secretary

* Names within each Category of awards appear in alphabetic order of Surnames & do NOT indicate ranking .

✂ Jaw Crusher

- ✂ Output yield as low as - 120mm.
- ✂ Automatic CSS / output size adjustment.
- ✂ Easy replacement of wear parts and spares.
- ✂ High throughput capacity and better crushing ratio.
- ✂ Exclusively four-piece bolted design - nowelding required.

✂ Vertical Shaft Impactor (VSI)

- ✂ Minimal wear costs and high durability.
- ✂ Automated oil lubrication panel.
- ✂ Rock on rock type.
- ✂ Simple yet efficient design.

✂ Cone Crusher

- ✂ Less flaky and well-rounded aggregates.
- ✂ Built-in Rotary feed distributor increases concave and mantle wear life.
- ✂ Easy to customize output size with automatic hydraulic adjustment button.
- ✂ Combined power pack with Hydraulic CSS adjustment, tramp iron release system and automatic oil lubrication.
- ✂ Optimized for maximal sand production (70-80 TPH) with limited power usage.
- ✂ No further treatment of sand like water washing or air classification is required - can be directly used in RMC.

✂ Material Handling Equipment

- ✂ Vibrating Screen
- ✂ Grizzly feeder
- ✂ Vibro Feeder

Product Range

- Jaw Crusher
- Cone Crusher
- Vibrating Screens

- Vertical Shaft Impactor
- Multiple and single stage crushing plants; Skid mounted, stationary.

- Customized Material handling equipment; Conveyors, Single and dual Hoppers, Surge bins, etc.
